1. Nature of operations and going concern

Terra Balcanica Resources Corp. (formerly 1250598 B.C. Ltd.) (“Terra” or the “Company”) was incorporated on May 19, 2020 under the laws of the Province of British Columbia, Canada. In March 2021, the Company changed its name to Terra Balcanica Resources Corp. Head office is located at 250 – 200 Burrard Street, Vancouver, BC V6C 3L6. The principal business of the Company is the identification, evaluation and acquisition of mineral property assets.

The Company is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral reserves that are economically recoverable. The Company's continuing operations and the underlying value and recoverability of the amounts shown for mineral property interests are entirely dependent upon the existence of economically recoverable mineral reserves and the ability of the Company to obtain the necessary financing to complete the exploration of the mineral property interests.

These condensed interim consolidated financial statements (“financial statements”) are prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations. As an exploration stage company, the Company does not have traditional sources of revenue, and historically has relied on advances payable to cover its operating expenses. As at October 31, 2025, the Company had an excess of current liabilities over current assets of \$118,887 (as at January 31, 2025 excess of current liabilities over current assets was \$436,444) and shareholders' equity of \$4,219,612 (January 31, 2025 - \$2,740,099). These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

On May 17, 2024, the Company consolidated its issued share capital on a ratio of two (3) old common shares for every one (1) new post-consolidated common share (the “Share Consolidation”). The current and comparative references to the common shares, weighted average number of common shares, loss per share, acquisitions, stock options and warrants have been restated to give effect to this Share Consolidation.

2. Material accounting policies

(a) Use of estimates and judgments

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of these financial statements and the reported expenses during the period. Actual results could differ from these estimates. The preparation of these financial statements requires management to make judgments regarding the going concern of the Company, as discussed in Note 1.

Deferred tax assets and liabilities

The Company is periodically required to estimate the tax basis of assets and liabilities. Where applicable tax laws and regulations are either unclear or subject to varying interpretations, it is possible that changes in these estimates could occur that materially affect the amounts of deferred income tax assets and liabilities recorded in the financial statements. Changes in deferred tax assets and liabilities generally have a direct impact on earnings in the period that the changes occur. Each period, the Company evaluates the likelihood of whether some portion or all of each deferred tax asset will not be realized. This evaluation is based on historic and future expected levels of taxable income, the pattern and timing of reversals of taxable temporary timing differences that give rise to deferred tax liabilities, and tax planning initiatives.

Impairment of mineral property interest

The application of the accounting policy for mineral property interests requires judgment in determining whether it is likely that future economic benefits will flow to the Company. The Company undertakes a review of the carrying values of mineral property interests and related expenditures whenever events or changes in circumstances indicate that their carrying values may exceed their estimated net recoverable amounts.

Valuation of share-based compensation

From time to time the Company may issue a specific number of common shares as compensation for services received where such a transaction did not entail the use of cash. The fair value of share-based payments is estimated using the Black-Scholes option pricing model and rely on a number of estimates, such as the expected life of the option, the volatility of the underlying share price, the risk-free rate of return, and the estimated rate of forfeiture of options granted.

2. Material accounting policies (continued)**(b) Basis of presentation**

These financial statements have been prepared in conformity with International Accounting Standard ("IAS") 34, Interim Financial Reporting, using the same accounting policies as detailed in the Company's annual audited consolidated financial statements for the year ended January 31, 2025, and do not include all the information required for full annual financial statements in accordance with IFRS Accounting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). It is suggested that these financial statements be read in conjunction with the annual audited consolidated financial statements.

These financial statements have been prepared on an historical cost basis, except for financial instruments measured at fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

All amounts on the consolidated financial statements are presented in Canadian Dollars (CDN); the functional currency of the Company is Canadian Dollar (CDN). The Company consolidated the operations of Tera Balkanika Doo Beograd ("Tera Balkanika"), which has a functional currency of the Serbian Dinar ("RSD") and Drina Resources D.O.O. ("Drina"), which has a functional currency of the Bosnian Marks ("BAM").

(c) Basis of consolidation

These financial statements include the accounts of the Company and its subsidiary. The results of each subsidiary will continue to be included in the consolidated financial statements of the Company until the date that the Company's control over the subsidiary ceases. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated on consolidation. All information is presented as at October 31, 2025 and January 31, 2025.

Entity	Incorporation	Status	Functional Currency	Ownership Percentage
Tera Balkanika	Serbia	Active	Serbian Dinar	100%
Drina	Bosnia	Active	Bosnian Mark	90%
Tera Balkanika d.o.o. Sarajevo ("Tera")	Bosnia	Inactive	Bosnian Mark	100%
Energetski Minerali Doo Banja Luka	Bosnia	Active	Bosnian Mark	100%
Terra North Resources Corp.	Canada	Active	Canadian dollar	100%

On May 5, 2025, the Company acquired a 90% ownership interest in Drina Resources d.o.o. Srebrenica, a Bosnia and Herzegovina-based exploration entity, through a share transfer from Tera Balkanika d.o.o. Beograd. The transaction was completed for no cash consideration and resulted in the Company obtaining control of the entity, with 10% non-controlling interests retained by local shareholders.

The transaction represents a common-control reorganization and is accounted for outside the scope of IFRS 3, with assets and liabilities recorded at their existing carrying values. The Company is in the process of obtaining final court and registry confirmations reflecting the ownership change, which management does not expect to impact control or economic interest.

(d) New accounting policies

Certain pronouncements have been issued by the IASB or IFRIC that are effective for accounting periods beginning on or after January 1, 2025. The Company has reviewed all other updates and determined that many of these updates are not applicable or consequential to the Company and have been excluded from discussion within these material accounting policies.

3. Receivables and prepaid expenses

Receivables and prepaid expenses consist of the following:

	October 31, 2025 \$	January 31, 2025 \$
VAT Receivable	8,618	8,569
GST Receivable	27,223	33,361

During the nine months ended October 31, 2025, the depreciation of \$10,186 was capitalized and included in mineral property interests.

5. Mineral property interests

Kaludra License

Ministry of Mining and Energy passed approval on September 28, 2017, approving Rockstone Group DOO Kać ("RSG") a company related by virtue of common director, to conduct geological research of lead (Pb), zinc (Zn), copper (Cu), gold (Au), Antimony (Sb) and accompanying metals in the exploration area "Kauldra", municipality Novi Pazar.

On January 25, 2021, Terra entered into an option agreement with RSG to purchase all the interests in the Kaludra License located central Serbia. In order to exercise the option, Terra must make a \$50,000 cash payment within 30 days from the January 25, 2021 (completed March 4, 2021). On January 26, 2022, the Company and RSG amended the option agreement as follows

In addition, the Company must make the following share issuances to RSG:

- 500,000 common shares of Tera on or before the second anniversary of the March 4, 2021 ("Grant Date") which is the date the Ministry of Mining and Energy in the Republic of Serbia grants a new license over the Kaludra License area in the name of the Company.

5. Mineral property interests (continued)

Kaludra License (continued)

RSG is eligible to receive bonus payments as follows from the Company:

- \$1,000,000 within 90 days of the commencement of commercial production.

Upon commencement of commercial production, the Company will pay RSG a Net Smelter Royalty ("NSR") being equal to 0.5% of the Net Smelter Returns. On December 23, 2023, the Company relinquished the Kaludra License and has impaired the property. No additional payments are outstanding as per the amended option agreement.

Ceovishte License

On March 2, 2020, Terra applied for the right to conduct geological research of lead (Pb), zinc (Zn), silver (Ag), copper (Cu), gold (Au) at the Ceovishte site in southwestern Serbia. On October 14, 2022, the Ceovishte licence has been officially granted by the Serbian Ministry of Energy and Mines to the Company's subsidiary Tera Balkanika doo Belgrade. The license will expire on October 13, 2025 with an option to be extended for additional 3 years on completion of research.

On January 25, 2021, Tera entered into a finders' fee agreement with RSG whereby RSG had previously located and introduced the Company to the Ceovishte Project. On January 26, 2022, the Company amended the agreement as follows:

The finder's fee obligated Tera to make a \$50,000 cash payment within 30 days of the closing of the Company's first equity financing after February 1, 2022. On or before the second anniversary October 13, 2024, issue 500,000 common shares (166,667 post-consolidated) of Terra and grant a 0.5% NSR within 30 days from which the Ministry of Mines and Energy of the Republic of Serbia grants the licenses. No additional payments are outstanding as per the amended option agreement. During the year ended January 31, 2024, the Company completed the \$50,000 cash payment by issuing 588,235 common shares.

The Company has relinquished the mineral licence held by its Serbian subsidiary Tera Balkanika doo Beograd – Stari Grad in December of 2024 and is in the process of liquidating the subsidiary.

Drina Resources doo Srebrenica Licenses

On April 2, 2019, Drina received approval to conduct detailed geological research of lead (Pb), zinc (Zn), copper (Cu) and accompanying metals in the exploration area "Olovine". On August 5, 2019, Drina received approval to conduct detailed geological research of lead (Pb), zinc (Zn), copper (Cu) and accompanying metals in the exploration area "Čumavići". The deadline for completion of the research is December 5, 2023 at the site "Čumavići" and October 2, 2023, at the site "Olovine" with an option to extend for 3.5 years.

Drina paid 7,758 BAM (\$5,756 CDN equivalent), for the site "Čumavići" (paid in fiscal 2019) and 8,941 BAM (\$6,634 CDN equivalent), for the site "Olovine" (paid in fiscal 2019).

On March 26, 2021, the Company received approval to conduct detailed geological research of lead (Pb), zinc (Zn), copper (Cu) and accompanying metals in the exploration area "Čaus" for 11,368 BAM (\$8,435 CDN equivalent). The deadline for completion of the research is March 26, 2024 with an option to extend it for 4 years.

The Company has relinquished the mineral licence held by its Serbian subsidiary Tera Balkanika doo Beograd – Stari Grad in December of 2024 and is in the process of liquidating the subsidiary.

On February 2, 2022, Drina received approval to annex the license hence increase scope of work and extend deadline on conducting detailed geological research of lead (Pb), zinc (Zn), copper (Cu) and accompanying metals in the exploration area "Olovine". With deadline for completion of the research October 2, 2026.

On June 5, 2022, Drina received approval to annex the license hence increase scope of work and extend deadline on conducting detailed geological research of lead (Pb), zinc (Zn), copper (Cu) and accompanying metals in the exploration area "Čumavići". With deadline for completion of the research February 5, 2027.

5. Mineral property interests (continued)

Fulcrum Metals PLC Licenses

On June 2, 2024, the Company entered into a definitive agreement with a wholly owned subsidiary of Fulcrum Metals PLC ("Fulcrum"). Pursuant to the Agreement, the Company will have an option (the "Option Agreement") to acquire a 100% interest in Fulcrum's Charlot-Neely, Fontaine Lake, Snowbird and South Pendleton uranium licenses (the "Licenses") located in northern Saskatchewan, Canada

On closing of the transaction, the Company will have a four-year option to acquire 100% of Fulcrum's owned uranium licenses.

In consideration for the four-year option the Company paid Fulcrum \$7,500 (Paid) for exclusivity on execution of signing of the Letter of Intent, and paid Fulcrum \$25,000 less the \$7,500 (\$17,500 Paid) exclusivity payment on execution of closing of the Option Agreement.

Additionally, the Company shall pay Fulcrum cash according to the schedule below:

- \$50,000 on the first anniversary of closing of the Option Agreement (paid);
- \$75,000 on the second anniversary of closing of the Option Agreement;
- \$75,000 on the third anniversary of closing of the Option Agreement;
- \$75,000 on the fourth anniversary of closing of the Option Agreement;

and issue Fulcrum shares of the Company at the 10-Day Volume Weighted Average Price ("VWAP") prior to the date of issuance as per the following schedule:

- \$250,000 on closing of the Option Agreement (issued)
- \$350,000 on the first anniversary of closing of the Option Agreement (issued);
- \$500,000 on the second anniversary of closing of the Option Agreement;
- \$650,000 on the third anniversary of closing of the Option Agreement; and
- \$1,250,000 on the fourth anniversary of closing of the Option Agreement.

The Company will also complete minimum work expenditures totalling \$3,250,000 prior to the fourth anniversary of the Option Agreement and grant Fulcrum a 1.0% Net Smelter Return ("NSR") on all claims with buydown option of 0.5% NSR for \$1,000,000.

Stock options

The Company has a Stock Option Plan (the "Option Plan"). Under the Option Plan, the exercise price of each option must not be less than the greater of the closing market price of the underlying securities on (a) the trading day prior to the date of grant and (b) the date of the grant of the stock options. The options can be granted for a maximum term of five years. The maximum number of options that can be issued may not exceed 10% of the issued and outstanding common share capital. The options vest at the discretion of the Board of Directors. The terms of the existing stock options remain in accordance with the stock option plan in place at the time the options were granted.

A summary of the status of the Company's stock options as at October 31, 2025 and January 31, 2025, and changes during the period/year then ended is as follows:

	Period ended October 31, 2025		Year ended January 31, 2025

6. Share Capital (continued)**Stock options (continued)**

During the nine months ended October 31, 2025, 3,500,000 options were granted with a weighted average exercise price of \$0.07 each expiring between March 12, 2027 and February 26, 2030. The fair value was calculated using the following weighted average assumptions: expected life of options – four and a half years, stock price volatility – 120%, no dividend yield, and a risk-free interest rate – 2.7%. The fair value is particularly impacted by the Company's stock price volatility, determined using stock price data from the previous ten years. Using the above assumptions, the fair value of options granted during the nine months ended October 31, 2025, was approximately \$0.07 per option, for an aggregate total of \$234,335.

During the nine months ended October 31, 2025, 166,667 options were cancelled. As a result, the original share-based payments expense \$70,000 was reversed from reserves and credited to deficit.

As at October 31, 2025, the Company had options outstanding and exercisable as follows:

Options outstanding #	Options exercisable #	Exercise price \$	Expiry date
1,300,000	1,300,000	0.60	June 8, 2027

7. Related party payables and transactions

The Company's related parties include key management personnel and Directors and companies in which they have control or significant influence over the financial or operating policies. There were no loans to management personnel or Directors, or entities over which they have control or significant influence for the nine months ended October 31, 2025, and Directors receive no salaries, non-cash benefits, or other remuneration directly from the Company, other than noted below, and there are no employment contracts with them that cannot be terminated without penalty on a thirty-day advance notice.

Key management personnel and Directors can participate in the Company's stock option plan. During the nine months ended October 31, 2025 2,350,000 stock options were issued to key management personnel and director (Note 6). No stock options were granted to related parties during the nine months ended October 31, 2024.

During the year ended January 31, 2025, two Directors of the Company subscribed unit offerings completed June 17, 2024 (Note 6), in which they were issued 257,500 units at \$0.10 per unit for gross proceeds of \$25,750. In addition, the CEO of the Company subscribed to the unit offering completed on October 30, 2024 (Note 6), in which 131,250 units were issued at \$0.10 per unit for gross proceeds of \$13,125.

9. Financial risk management**Capital management**

The Company is a junior exploration company and considers items included in shareholders' equity as capital. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of underlying assets. In order to maintain or adjust its capital structure, the Company may issue new shares, purchase shares for cancellation pursuant to normal course issuer bids or make special distributions to shareholders. The Company is not subject to any externally imposed capital requirements and does not presently utilize any quantitative measures to monitor its capital. As at October 31, 2025, the Company's capital structure is comprised of shareholders' equity of \$4,219,612.

The Company currently has no source of revenue. In order to fund future projects and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company's ability to continue as a going concern on a long-term basis and realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation is primarily dependent upon its ability to sell or option its mineral properties and its ability to borrow or raise additional financing from equity markets.

Financial instruments – fair value

The Company's financial instruments consist of cash, receivables, accounts payable and accruals, due to related parties and advances payable.

The carrying value of receivables, accounts payable and accruals, due to related parties and advances payable approximates their fair value because of the short-term nature of these instruments.

Financial instruments measured at fair value on the condensed interim consolidated statements of financial position are summarized into the following fair value hierarchy levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company's financial assets and liabilities are carried at amortized cost and belong to Level 2 of the fair value hierarchy. During the nine months ended October 31, 2025, there were no transfers between the levels of the fair value hierarchy.

Financial instruments – risk

The Company's financial instruments are exposed to certain financial risks, including credit risk, interest rate risk, market risk, and liquidity risk.

a) Credit risk

Financial instruments that potentially subject the Company to a significant concentration of credit risk consist primarily of cash. The Company limits its exposure to credit loss by placing its cash with major financial institutions. The Company has minimal receivables exposure as its refundable credits are due from the Serbian government.

b) Interest rate risk

The Company is not exposed to interest rate risk because of fluctuating interest rates. Fluctuations in market rates do not have a significant impact on the Company's operations due to the short term to maturity.

c) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they come due. The Company manages this risk by careful management of its working capital to ensure its expenditures will not exceed available resources (Note 1). The Company's contractual cash outflows of its financial liabilities approximate their carrying values and are due within 12 months as at October 31, 2025 and October 31, 2024.

9. Financial risk management (continued)

Financial instruments – risk (continued)

d) Currency risk

As at October 31, 2025 of the Company's cash was held either in Canadian dollars, Bosnian Mark or Serbian Dinar. The Company incurs expenditures in Canada, Bosnia and Serbia, and as such is exposed to currency risk associated with these costs.

A change in the value of the Bosnian Mark and Serbian Dinar by 10% relative to the Canadian dollar would not have a significant impact on the Company's working capital and net loss for the nine months ended October 31, 2025 and October 31, 2024.

10. Segment information

All assets are located in Canada except property and equipment, deposit and mineral property interests for \$3,109,124 (January 31, 2025 - \$2,542,501) which is located in Bosnia and \$nil (January 31, 2025 - \$nil) which is located in Serbia.

11. Events after the reporting period

On December 15, 2025, the Company announced a corporate reorganization whereby the Company plans to spin out its Canadian uranium assets into a wholly owned subsidiary, Terra North Resources Corp.
